# INTERIOR DOOR INTRODUCTION

## LOCAL PRODUCTS

We source our wood products locally, selecting from high grades of Douglas Fir and Knotty Alder. We believe our forests grow the best trees, and we want our doors to reflect that.

## FROM TREE TO HOME

Trimlite manufactures its door products both locally and globally, allowing us to control the quality of our products from tree to door.

## LOCAL PARTNERS

We select partners that reflect our values. Our moulded doors are made locally, which is something we value.

## DETAILS MATTER

We pride ourselves on being manufacturers, and to us, the little details matter. Whether it is a perfect joint, a seam-free door, or a shaker with perfect edges, we want to build the best door, every time.

Contemporary homes reflect the architecture and design of today. They represent smart design and curb appeal. We selected several doors that we believe represent the ethos of now and can be loved forever.

CRAFTSMAN

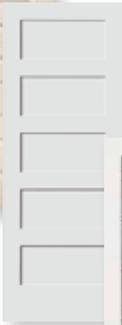

Craftsman homes emphasize hand-worked touches and beautiful detailing. Popularized at the turn of the 20th Century, it remains a popular design aesthetic. We have recommended several door and hardware options that give your doors the beautiful detailing a craftsman home requires.
